

CHAPTER 9 - CONCLUSION AND REFERENCES

9.1 Conclusion

EduGenie successfully integrates Google Gemini, LaMini-Flan-T5, FastAPI, HTML, and CSS to provide an AI-powered educational assistant with multiple learning features.

9.2 Advantages

Interactive learning, AI-powered responses, modular architecture, scalability, and user-friendly interface.

9.3 Limitations

Requires internet connectivity and depends on external AI services. Database and authentication can be added in future versions.

9.4 Future Scope

Future enhancements include multilingual support, mobile applications, cloud deployment, student progress tracking, voice interaction, and database integration.

9.5 References

Google Gemini Documentation, FastAPI Documentation, Python Documentation, HTML5 Documentation, CSS3 Documentation, Git Documentation, GitHub Documentation.
